

Collector Workshop

Exercise 4 – View your collections in ArcGIS Online.

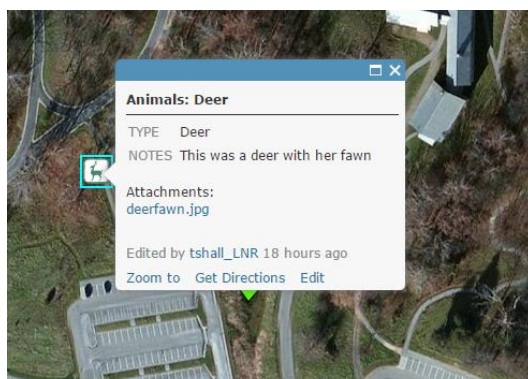

In a browser, go to arcgis.com, log in with your username and password, and go to My Content.

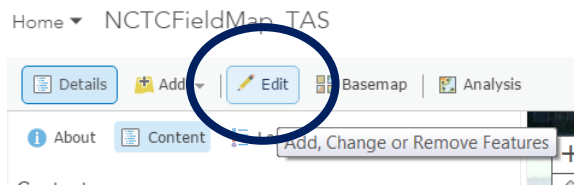

Click on NCTFieldMap_xyz to go to the Details page. Click on the thumbnail to open the webmap. You should see all of your collections:

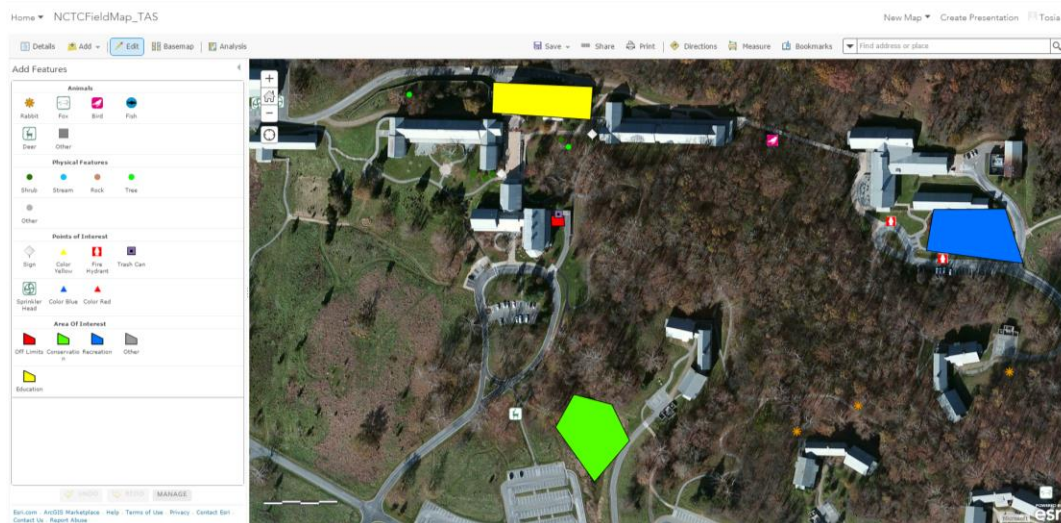

Click on any one to bring up the attributes, open any attached photos.

If you want to make any edits to your features here in the Map Viewer, click on **Edit**:

You can click on the map on any existing features to edit their location, attributes, and attachments. You can also click on any feature on the left side and place a new feature:

Once you have finish editing, click the **Edit** button one more time to get out of Editing Mode. **Save** your map.

Congratulations, you've completed your Collector project!!

END
